

Dear Resident(s)

As advised in the email sent yesterday regarding the water outage, we would like to confirm that the repair works are currently scheduled for **today only**, unless we receive any further updates.

We have been informed that the water supply will be interrupted for approximately **three hours** sometime between **8:00am and 5:00pm**.

These works are being carried out by **Essex & Suffolk Water** following the burst water main at the front of the park yesterday.

Thank you for your patience and understanding.

Customer Care Team
